PLAN

Month 1 Overview - October 2026

Weeks 1-4 | Phase: Foundation | 5 October to 1 November 2026

Goals for the month

• Make the seven-session week a habit before adding any volume.
• Bike: FTP test in Week 1, then Zone 2 base with cadence work. Longest ride 105 min.
• Swim: 400 m baseline, then body position, kick, catch and breathing drills. Two swims per week, 1,100-2,000 m each.
• Run: treadmill walk/run twice per week, from 6 to 12 minutes of total running per session. Zero pain is the target, not pace.
• Strength: two sessions per week. Achilles heel drops and knee prehab on every run day.
