RUN

Week 01 Run

Week 1 of 52 | Mon 05 Oct 2026 to Sun 11 Oct 2026 | Month 1: Foundation and testing

Thursday, 08 Oct Treadmill walk/run 1:2 (45 min)

Focus: First tendon loading. Easy is the whole point

Section	Details
Warm-up	5 min brisk walk (5.5-6.0 km/h), 1% incline. 20 slow calf raises off the back of the treadmill, 10 leg swings each way.
Main	6 x (1 min easy jog / 2 min walk) = 18 min. Total run time 6 min.
Cool-down	5 min walk, then the 15-minute prehab routine (see Achilles and Knee Prehab Guide).

Notes: Jog pace = a pace you could talk in full sentences at, likely 7.5-8.5 km/h. Walk = 5.5-6.0 km/h. Cadence 170+ steps/min: short, quick steps, land under the hips.

Sunday, 11 Oct Treadmill walk/run 1:2 (30 min)

Focus: Same as Thursday. Then Strength B

Section	Details
Warm-up	5 min brisk walk (5.5-6.0 km/h), 1% incline. 20 slow calf raises off the back of the treadmill, 10 leg swings each way.
Main	6 x (1 min easy jog / 2 min walk) = 18 min. Total run time 6 min.
Cool-down	5 min walk, then go straight into Strength B (the prehab is built into it).

Notes: Jog pace = a pace you could talk in full sentences at, likely 7.5-8.5 km/h. Walk = 5.5-6.0 km/h. Cadence 170+ steps/min: short, quick steps, land under the hips. Pain during / next morning (0-10): ____ / ____
