RUN

Week 04 Run

Week 4 of 52 | Mon 26 Oct 2026 to Sun 01 Nov 2026 | Month 1: Recovery week: absorb the work

Thursday, 29 Oct Treadmill walk/run 1.5:2 (recovery) (40 min)

Focus: Step back so the tendons catch up

Section	Details
Warm-up	5 min brisk walk (5.5-6.0 km/h), 1% incline. 20 slow calf raises off the back of the treadmill, 10 leg swings each way.
Main	5 x (1.5 min easy jog / 2 min walk) = 17.5 min. Total run time 7.5 min.
Cool-down	5 min walk, then the 15-minute prehab routine (see Achilles and Knee Prehab Guide).

Notes: Jog pace = a pace you could talk in full sentences at, likely 7.5-8.5 km/h. Walk = 5.5-6.0 km/h. Cadence 170+ steps/min: short, quick steps, land under the hips.

Sunday, 01 Nov Treadmill walk/run 1.5:2 (recovery) (30 min)

Focus: Repeat of Thursday, then Strength B (light)

Section	Details
Warm-up	5 min brisk walk (5.5-6.0 km/h), 1% incline. 20 slow calf raises off the back of the treadmill, 10 leg swings each way.
Main	5 x (1.5 min easy jog / 2 min walk) = 17.5 min. Total run time 7.5 min.
Cool-down	5 min walk, then Strength B.

Notes: Month-end: total pain-free run sessions this month ____ of 8. If 7 or more, Month 2 progresses; if fewer, Month 2 repeats Weeks 2-3.
