STRENGTH

Week 04 Strength

Week 4 of 52 | Mon 26 Oct 2026 to Sun 01 Nov 2026 | Month 1: Recovery week: absorb the work

Monday, 26 Oct Strength A - Full-body foundation (45 min)

Focus: Movement quality, tendon loading, core

Section	Details
Goblet squat	3 x 8. Heels down, knees track over toes, depth only as far as pain-free
Dumbbell Romanian deadlift	3 x 8. Soft knees, hinge at the hip, flat back, feel the hamstrings
Push-up (incline if needed)	3 x 8. Body in one line, elbows at 45 degrees
Single-arm dumbbell row	3 x 8 each. Pull the elbow to the hip, no torso twist
Step-up to low box	3 x 8 each. Drive through the whole foot, control the descent
Dead bug	3 x 8 each side. Low back stays glued to the floor
Side plank	3 x 20 s each. Hips stacked, straight line ear to ankle
Eccentric heel drops, straight and bent knee	3 x 15 each. From the prehab guide, slow 3 s lowering

Notes: Warm up 5 min: easy bike or walk, then 10 bodyweight squats, 10 hip hinges, 10 arm circles. Rest 60-90 s between sets. Week 4: reduce weight by 20-30% and reps to the listed numbers. Move well, leave the gym fresh.

Sunday, 01 Nov Strength B - Hips, knees, core (30 min)

Focus: Glute medius, patellar tracking, trunk stability

Section	Details
Glute bridge (progress to single leg)	3 x 8. 2 s squeeze at the top
Clamshell with band	3 x 15 each. Pelvis does not roll back
Monster walk	3 x 10 steps each way. Stay low, knees out
Step-down from low step	3 x 8 each. Knee over second toe, slow
Wall sit	3 x 20 s. Progress time, not depth
Bent-knee calf raise (seated, weight on thigh)	3 x 15. Slow up, slow down
Bird dog	3 x 8 each side. Hips level, reach long
Pallof press (band)	3 x 8 each side. Resist the rotation
Front plank	3 x 20 s. Squeeze glutes, breathe
Single-leg balance	3 x 30 s each. Eyes closed if easy

Notes: Done straight after the Sunday treadmill session, which serves as the warm-up. Light week. Keep the heel drops and calf raises at full volume; those are the ones that matter most.
