SWIM

Week 04 Swim

Week 4 of 52 | Mon 26 Oct 2026 to Sun 01 Nov 2026 | Month 1: Recovery week: absorb the work

Tuesday, 27 Oct Swim A - Easy technique (50 min)

Focus: Short, relaxed, drill-heavy

Section	Details
Warm-up	200 easy FS
Drills	8 x 50 drill mix r20: 2 x Kick on side, 2 x Catch-up, 2 x Fist/FS, 2 x Fingertip drag/FS
Main set	4 x 100 FS easy r30, focus on your best stroke count of the month
Cool-down	100 easy

Total: about 1100 m

Friday, 30 Oct Swim B - Easy steady (50 min)

Focus: Consolidate, no clock pressure

Section	Details
Warm-up	200 easy FS, 4 x 50 Build r20
Drills	4 x 50 (25 Single-arm / 25 FS) r20
Main set	6 x 100 FS steady r30 at training pace, relaxed
Cool-down	100 easy

Total: about 1400 m

Notes: Month-end check: does 2:00/100 feel easier than it did on 5 October? Write a sentence about it here.

Drill cue cards for this week

Drill	How to do it and what it trains
Kick on side	One arm extended in front, palm down, other arm on your hip. Ear rests on the extended arm, body rolled about 45 degrees, hips at the surface. Kick steadily; rotate the head to breathe without lifting it. Switch sides every 25. Purpose: balance and body line.
Catch-up	Both arms start extended. One arm pulls and recovers while the other waits out front; the recovering hand touches the waiting hand before the next stroke starts. Purpose: long stroke, front-quadrant timing, patience in the glide.
Fist drill	Swim freestyle with closed fists. You will feel the forearm doing the work. After 25 m of fists open the hands and notice the extra grip. Purpose: early vertical forearm and feel for the water.
Fingertip drag	Swim normally but during the recovery let the fingertips trail along the surface, elbow high and pointing to the ceiling. Purpose: relaxed, high-elbow recovery and shoulder rotation.
Stroke count	Count strokes per 25 m (one arm = one stroke). Write down your normal count, then try to hold pace with one fewer. Purpose: efficiency and distance per stroke.
Build 50	Start the 50 easy and finish it fast, without letting the stroke shorten. Purpose: learning to raise speed by pressing harder on the water, not by spinning the arms.
Single-arm	One arm swims, the other stays extended in front. Breathe to the side of the working arm. Focus on the catch: fingertips down, elbow high, press back not down. Switch arms every 25. Purpose: catch mechanics and rotation.
